

## Vidiom Systems Appoints New CTO and VP of Engineering

Broomfield, CO -- 16 April 2004 -- Vidiom Systems, a leader in providing iTV solutions, today announced the promotions of Eric Miller to Chief Technical Officer and Rob Beaver to Vice President of Engineering.

Mr. Miller's role as CTO will allow him to focus on developing Vidiom's strategies for implementing new technologies with an emphasis on OCAP middleware architecture, application hosting solutions, and application deployment technologies. He will also continue to work with cable operators and other strategic partners to define innovative system solutions to support their next-generation products and services.

As VP of Engineering, Mr. Beaver will oversee Vidiom's engineering department with teams located in Broomfield, Colorado, Portland, Oregon, and Des Moines, Iowa. Mr. Beaver joined Vidiom in October of 2002.

Both Mr. Miller and Mr. Beaver will report directly to Timothy Wahlers, Vidiom's President and CEO.

### About Vidiom Systems

Vidiom Systems Corporation provides technology solutions to the cable, satellite, and consumer electronics industry. Specializing in the design of middleware, iTV applications, and tools, as well as services including system integration consulting, technical documentation, testing, and training, Vidiom's staff has the experience to develop the innovative system solutions our clients require. Founded in 1997 and headquartered in Broomfield, Colorado, Vidiom Systems has additional offices in Portland, Oregon, and Des Moines, Iowa.
