

Vidiom Systems, Inc. Announces OCAP Testing and Integration Services for CE Manufacturers

Broomfield, CO – January 8, 2006 – Vidiom Systems, Inc., a leading provider of technology solutions and services to the cable and consumer electronics industries, today announced it is providing a suite of OCAP™ device testing and integration services to assist CE manufacturers with their preparation for CableLabs® certification and field deployment. Services include CableLabs CableCard™ Interface Testing (ATP), CableLabs OCAP Stack testing (CTP), performance testing using Vidiom’s OCAP performance tests, Sun JVM Testing (TCK), Integration testing using network profiles, test analysis and engineering services, custom test development, and deployment.

“Vidiom is the only company offering a complete line of OCAP testing and integration services to the CE and Cable industry. In addition to testing devices, Vidiom also provides engineers and testers that have experience with OCAP software, JVMs, networks, and test methodology that can assist clients in resolving problems that are realized during the testing and deployment process,” said Walden Miller, VP of Engineering Services.

OCAP is part of the OpenCable initiative created by CableLabs and has been adopted as a standard by the SCTE and other standards organizations. The goals of the OpenCable initiative are to provide a unified, open standard that allows programmers to deploy interactive services over multiple cable networks, enable supplier competition, and create a retail market for digital cable receivers.

About Vidiom Systems, Inc.

Vidiom Systems, Inc. (www.vidiom.com) is the leading provider of standards-based iTV platforms, applications, and professional services to network operators, content providers, and CE manufacturers. Our expertise includes software design and engineering, application development, network migration, integration and deployment, testing, technical writing, and technical training. Founded in 1997, Vidiom Systems is headquartered in Broomfield, Colorado, and has additional engineering offices in Portland, Oregon, and Des Moines, Iowa. Vidiom Systems is a member of the ADB Group of companies (www.adbholdings.com).
